

GENERATION

# CREATE AN ORGANISM

GET BUSY AND DESIGN YOUR VERY OWN ORGANISM INSPIRED BY GENERATION AIR.

USE THE CUT OUT SHAPES INSIDE THIS LEAFLET AND GLUE TOGETHER.

WHY NOT MAKE IT 3D WITH RECYCLED BITS AND PIECES YOU FIND AT HOME?

DON'T FORGET TO GIVE IT A NAME!

1

## FIRST, WE NEED A BODY TO MOVE

Is yours round? Wobbly? Square? Bony or squelchy? Is it spotty? Stripy? Spiky or furry?

2

## AND SOME TENTACLES TO FEEL

Are they long and stretchy? Glowing, glittery or shiny? Hairy? Wiggly? Straight? Or sticky?

3

## WE'LL NEED SOME EYES TO SEE

Where will they be? On its body? On the end of the tentacles? How many will there be? How about eyelids? Or eyelashes?

4

## FINALLY WE NEED A MOUTH TO BREATHE

Is it huge? Or very tiny? What does it eat? Does it need a tongue? Or teeth? Does it make a noise, kiss or bite?

## SHARE YOUR CREATIONS

Show us what you made and make your organism famous!
